

July 4, 2022

Good afternoon

We truly hope that everyone had a chance to celebrate Canada Day and took the opportunity on the long weekend to appreciate all the good things about being Canadian. Regardless of heritage or background we should all feel blessed to live in such a beautiful and bountiful country. As our neighbours to the south celebrate "July 4th – America's Birthday" let remain optimistic that the world today with all its troubles and conflicts turns towards a brighter future for us and generations to come. The human spirit will prevail.

It is important to note that recent analysis of data by researchers at the University of Toronto shows that since mid-December 2021, Omicron has been more deadly for Ontarians age 60 and over than the previous two waves combined. COVID is still here and for these reasons the regulations require that we do not relax our infection prevention controls which include visitor screening and testing. Thank you in advance for your cooperation.

All of us here at Wawel Villa and Turtle Creek Manor are enjoying this wonderful weather as it draws us outside where it is healthier, safer and more fun. As we all know, after our glorious Canadian autumn we might find ourselves complaining again about something weather related.

Take care everyone ... until next time.

Jon Grayson
