

April 26, 2022

You will be pleased to hear that there is not much news to report this week. We seem to be in a holding pattern but continuing to maintain our current policies and procedures. However, we are keeping a watchful eye for any developments with the most recent COVID variant which seems to be spreading far and wide. Mainly however we are focusing on activities with our residents. Our goal is to bring everyone back to a more normal tempo of life. Regularity and routine may be boring to some, but to many of us here, they are welcome. Sometimes boring and safe is a good thing. The past couple of years were anything but.

It is our opinion that the best way to deal with the current pandemic situation is to continue consistent sound policies, vaccines, masks, rapid testing, and common-sense infection control. Each of these has an incremental benefit and as a whole, it may be our best bet. This is our approach at Wawel Villa.

Another reason to follow the above-mentioned steps is that there is more out there than just COVID. Seasonal influenza activity has increased sharply. Try to remember to wash your hands regularly and sneeze into your elbow.

Wawel Villa is currently accepting resumes for summer positions from Students and Young Workers (between 15 and 30 years of age). Personal Support Worker, Administrative Assistant, Dietary Aide, Social Services (Activities) and Building Maintenance Assistant. If you know someone who may be interested in the above positions, please submit resumes to Human Resources via email at elmagoral@wawel.org

Until next week.

Jon Grayson
