October 14, 2022

Good evening

By now most of our Thanksgiving Dinner leftovers have been put to good use. We sincerely hope that all of you took the occasion to celebrate all the things we have to be grateful for. Life remains a mystery to some, yet it is still worth living, if for no other reason than to enjoy each other's company, affection and sense of belonging.

We would like to remind all those wishing to visit residents of Wawel Villa that rapid tests are no longer required but are available if you would like. However, active screening is mandatory which includes the completion of a new short and simplified one-sided form. No more temperature checks.

Masks must be worn in all common areas in our Home. However, masks may be removed when visiting with a resident in their private room or outside in our Wawel Park.

We will shortly be administering the seasonal flu vaccine to our residents and COVID vaccinations a little later.

As we enter the new flu season, please remember to sanitize your hands frequently as this is one of the most common transmission routes for all viruses and bacteria.

It is too early to let our guard down as COVID case are still increasing in congregate settings and mostly in those over 80 years of age who are the most vulnerable to this virus. They need our protection.

Enjoy autumn with its colours and aromas ... a special season for all of us to appreciate.

Jon Grayson
